ST. AUGUSTINE, FLA., Feb. 5, 1902.

I have not enjoyed good health for the past five years, and were it not for Wine of Cardui I would still be a sufferer today. I was troubled with profuse menstruation, was very irregular and often menstruated every three weeks instead of at the proper periods. Each time I would have severe cramps and bearing down pains with backache unfitting me for office work, and compelling me to lie down for several hours each day and sometimes the entire day. I used several remedies and spent hundreds of dollars trying to get relief, but all of no avail. Fortunately, one of your Ladies' Birthday Almanacs came into my hands and I became much interested, naturally hop-ing that it would cure me as it had cured others. I took my first dose that night and kept up the treatment religiously. My vitality, which had been well night spent by the heavy loss of blood, was gradually restored. I noticed a marked absence of pain at the next period, also a more natural flow. I kept up the treatment for four months and found to my joy that I was entirely well, and the functions of nature were performed naturally and casily. Wine of Cardui is certainly a grand medicine and gladly do I give it entire credit for my wonderful restoration to health.

The club people, it is said, re-fuse to pull peanuts for less than fifty cents a hundred, which is eleven cents a bushel. The prevailing price is from eight cents to ten cents a bus'ed, but labor is hard to get and in rare cases this fall farmers have paid as much as twelve and a half cents a bushel. Planters around Copeland say they will

get the peanuts picked by machines for about twenty-five cents a hundred, but that class of work is nothing like so satisfactory as hand work, and goods handled that way don't sell so well. However, a machine has been started to
